

## Software Scorecard

### Is Your Project Data Software Holding You Back?

Not all construction software is created equal—especially when it comes to ease of use. The right tool should be quick to learn and *actually* help you win more work.

### Put Your Current Tool to the Test

Does your solution make the cut? See how it stacks up against the industry benchmark for easy-to-use project data software.

Feature	My Software	ConstructConnect® Project Intelligence
Mobile-Friendly Work anywhere, from a jobsite or an office.		✓
Custom Filters See only the projects that matter to you.		✓
Onboarding Tutorials Learn the platform in less than 15 minutes.		✓
Live Support Talk to a real person when you need help.		✓
Integrates with Other Tools Seamlessly connects with takeoff and estimating solutions.		✓

### Don't Settle for “Good Enough” Software

If your current tool isn't checking all the boxes, it could be costing you more than you think—lost time, missed opportunities, and extra work you shouldn't have to do.

Stop working around  
your software—start  
making it work for you.
